My life has been
a struggle thus far.

Daughter of a
revered warrior

..I'll never know..

by slaying the
chief who wanted
my father and my
entire family dead

..heir to the
throne...

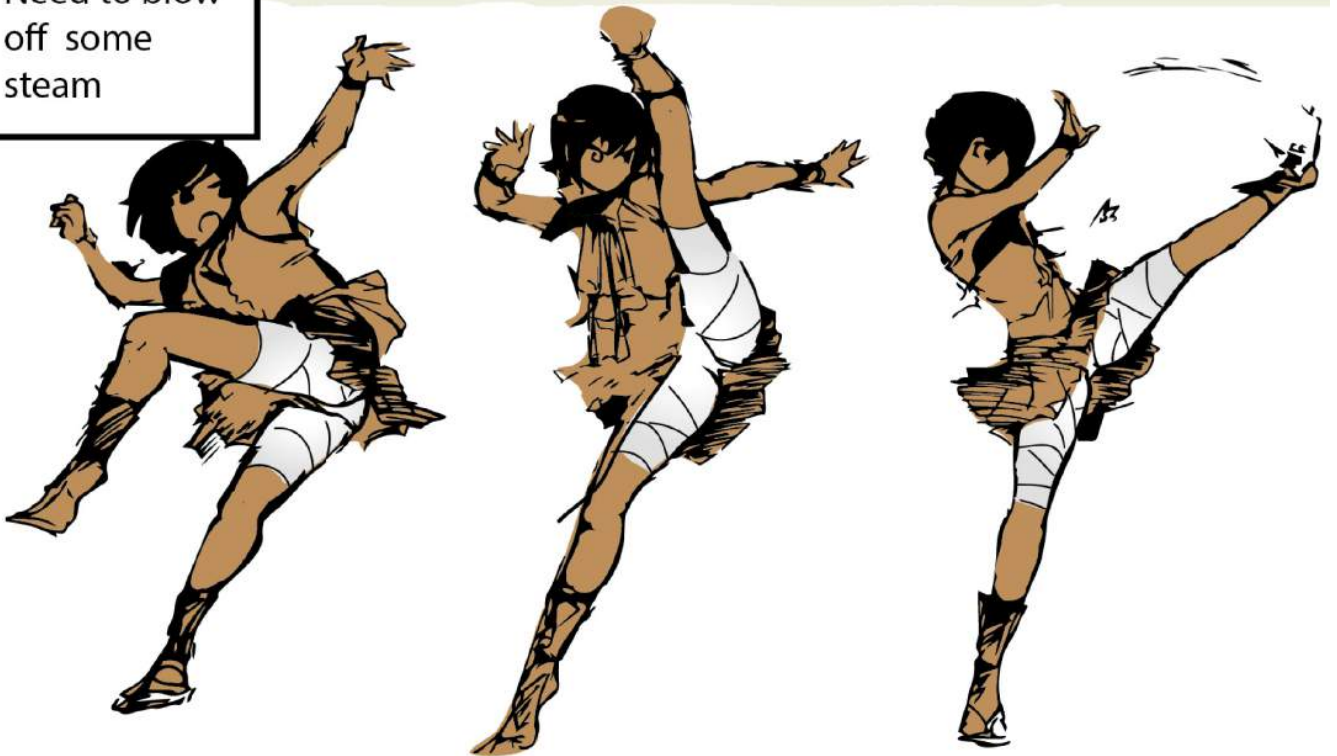

Sigh

and now I am to
take my place
as chief

Its all too much
too fast

Need to blow
off some
steam

To centre
myself

Won't be long
now till they
come for me

Got to enjoy
what time I
have left

Maybe the
prophecy was
wrong

Meanwhile in
the main village
of the Luba
empire

Main Village, Luba Empire

The princess she has run away!

WHAT?
SINCE WHEN?

Without her becoming chief today at the full moon the prophecy of a United African under a warrior chief will not be fulfill. I must find her

As the sun sets over the Luba Kingdom, old man Mujibu wonders the bush in search of the runaway princess.

Useless child, still as rebellious as ever. Three days and countless search parties later they decide to call me Mujibu the Prophet to search for this rascal I used to call a pupil.

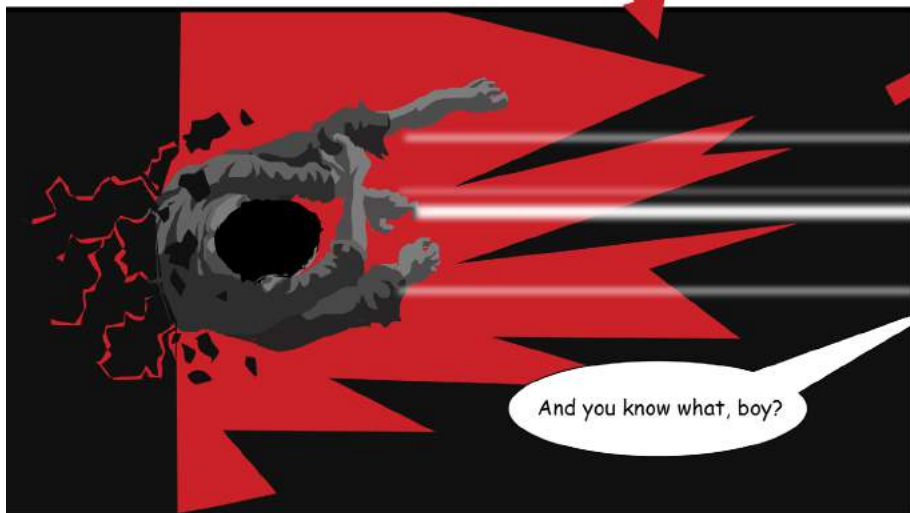

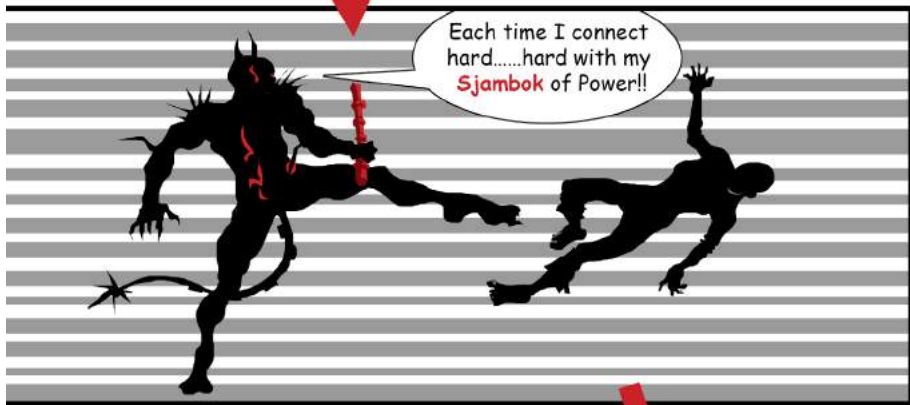

I swear if she wasn't the heir to the throne I would give her twice the standard punishment and hard labour for three months that would make even the hardest of criminals weep and reform. Only problem is that hard head of... wait... what is that i sense..

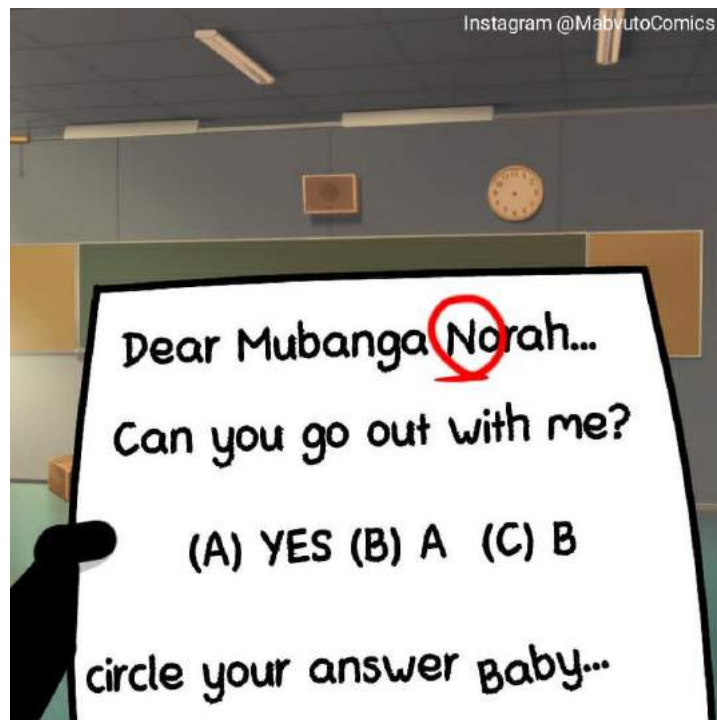

Nearby, a set of eyes watches Mujibu. She can feel that he has found her using his magic

PEOPLE OF LUSAKA, I AM BLACK SCORCH!

I AM PART OF AN ORGANISATION OF SPECIAL PEOPLE WITH A GOAL.

THE GOVERNMENT HAS TRIED TO KILL OFF AND KEEP US A SECRET FOR FAR TOO LONG.

BUT NOW I'VE BEEN GIVEN THE POWER TO MAKE THAT GOAL A REALITY.

REJOICE! BECAUSE YOU'LL BE THE SACRIFICE OF SOMETHING NEW...

...SOMETHING BETTER.

EVERYBODY **RUN!**

I'M TOO YOUNG TO DIE!

I'M TOO RICH TO DIE!

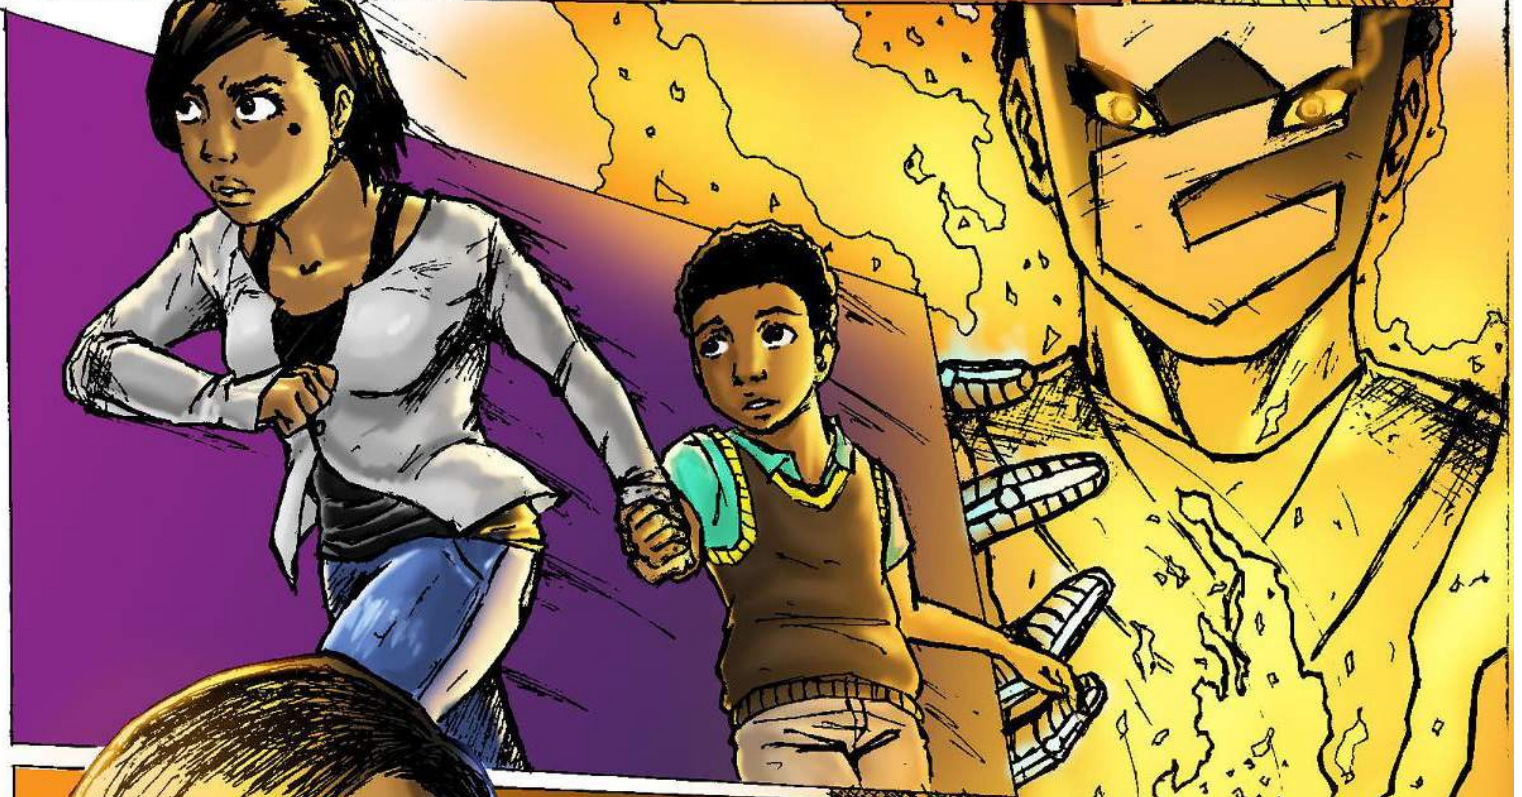

DAMN IT!

THE DOOR'S STUCK AGAIN!

MOM, ARE WE GOING TO DIE?

A Zambian werewolf story set across the stars...

A violent encounter surrounding an alien artifact paints a target on Tanya Kaleji as she comes to realise that her body contains an ancient nanotech entity that has incorporated itself within her gene code and ultimately turned her into something other than human.

Now on the run from a powerful multinational corporation and a swarm of rival militias, Tanya seeks the answers to the questions of her weaponised body's purpose and a means to rid herself of the cyber demon within.

Set in an alternate history, Makali's story redefines colonialism within the context of extraterrestrial rule.

The tale follows the renowned premise of African physical strength and mental endurance being derived from strife and suffering, but now made phenomenal by both the extremity of the protagonist's torment as well as his sheer willpower to overcome the otherworldly force that has imprisoned his people.

Henry Sakuwaha was a mere boy at the apex of the great war that had ensued between Earth and the invaders known as the Jurai. When Earth's mightiest nations fell before their overwhelming might, the Jurai turned to Africa as their next point of conquest, resulting in a fierce resistance from the world's Last Citadel and collective of surviving warriors. It was during the start of this alien campaign, known as the First Incursion, that Henry lost his father and fell into slavery. In the years leading to his escape from the Jurailabour camp, Henry's body underwent an uncanny physical transformation under the horrific torture of captivity. Reinforced by a vengeance-driven psyche, this reborn physique becomes an unyielding tool that earns Henry a new name by which both friend and foe shall come to know him. This is the story of Makali. Zambian son. African hero. Earth legend.
